BANGOR DAILY WHIG AND COURIER.

BY SMITH & SAYWARD. TUESDAY, APRIL 2, 1850. VOLUME XVI.....NUMBER 233.

CAUTION EXTRA

A man by the name of [illegible] has engaged with a young man of the name of S. P. Townsend, and uses his name to put up a Sarsaparilla, which they call Dr. Townsend's Sarsaparilla, denominating it GENUINE Original, etc. This Townsend is no doctor and never was; but was formerly a worker on railroads, canals, and the like. Yet he assumes the title of Dr., for the purpose of gaining credit for what he is not. This is to caution the public not to be deceived, and purchase none but the GENUINE ORIGINAL OLD Dr. Jacob Townsend's Sarsaparilla, having on it the Old Dr's likeness, his family coat of arms, and his signature across the coat of arms.

Principal Office, 102 Nassau St., New York City.

OLD DR. JACOB TOWNSEND,

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla

Old Dr. Townsend is now about 70 years of age, and has long been known as the AUTHOR and DISCOVERER of the GENUINE ORIGINAL "TOWNSEND SARSAPARILLA." Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death, proclaimed its excellence and wonderful

HEALING POWER.

Knowing, many years ago, that he had, by his skill, science and experience devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice when its inestimable virtues would be known and appreciated. This time has come, the means are supplied; this GRAND AND UNEQUALLED PREPARATION is manufactured on the largest scale, and is called for throughout the length and breadth of the land, especially as it is found incapable of degeneration or deterioration.

Unlike young S. P. Townsend's, it improves with age, and never changes, but for the better; because it is prepared on scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla. The Sarsaparilla root, it is well known to medical men, contains many medicinal properties, and some properties which are inert or useless, and others, which if retained in preparing it for use, produce fermentation and acid, which is injurious to the system. Some of the properties of Sarsaparilla are so volatile, that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover, these volatile principles, which fly off in vapor, or as an exhalation, under heat, are the very essential medical properties of the root, which give to it all its value.

Any person can boil or stew the root till they get a dark colored liquid, which is more from the coloring matter in the root than from any thing else; they can then strain this insipid or vapid liquid, sweeten with sour molasses, and then call it "SARSAPARILLA EXTRACT or SYRUP." But such is not the article known as the

GENUINE OLD DR. JACOB TOWNSEND'S SARSAPARILLA.

This is so prepared, that all the inert properties of the Sarsaparilla root are first removed, every thing capable of becoming acid or of fermentation, is extracted and rejected; then every particle of medical virtue is secured in a pure and concentrated form; and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way, it is made the most powerful agent in the

Cure of innumerable diseases.

Hence the reason why we hear commendations on every side in its favor by men, women, and children. We find it doing wonders in the cure of CONSUMPTION, DYSPEPSIA, and LIVER COMPLAINT, and in RHEUMATISM, SCROFULA, PILES, COSTIVENESS, all CUTANEOUS ERUPTIONS, PIMPLES, BLOTCHES, and all affections arising from

IMPURITY OF THE BLOOD.

It possesses a marvellous efficacy in all complaints arising from Indigestion, from Acidity of the Stomach, from unequal circulation, determination of blood to the head, palpitation of the heart, cold feet and hands, cold chills and hot flashes over the body. It has not its equal in Colds and Coughs, and promotes easy expectoration and gentle perspiration, relaxing stricture of the lungs, throat, and every other part.

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS.

It works wonders in cases of Fluor Albus or Whites, Falling of the Womb, Obstructed, Suppressed or Painful Menses, Irregularity of the menstrual periods and the like; and is as effectual in curing all the forms of Kidney Disease.

By removing obstructions, and regulating the general system, it gives tone and strength to the whole body, and thus cures all forms of

Nervous diseases and debility,

and thus prevents or relieves a great variety of other maladies, as Spinal irritation, Neuralgia, St. Vitus Dance, Swooning, Epileptic Fits, Convulsions, &c.

It cleanses the blood, excites the liver to healthy action, tones the stomach, and gives good digestion, relieves the bowels of torpor and constipation, allays inflammation, purifies the skin, equalizes the circulation of the blood, producing gentle warmth equally all over the body, and the insensible perspiration, relaxes all strictures and tightness, removes all obstructions, and invigorates the entire nervous system. Is not this then

The medicine you pre-eminently need?

But can any of these things be said of S. P. Townsend's inferior article? This young man's liquid is not to be

COMPARED WITH THE OLD DR'S,

because of one GRAND FACT, that the one is INCAPABLE of DETERIORATION and

NEVER SPOILS,

while the other DOES; souring, fermenting, and blowing the bottles containing it into fragments; the sour, acid liquid exploding and damaging other goods! Must not this horrible compound be poisonous to the system?—What! put acid into a system already diseased with acid! What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs, what mischiefs it produces? flatulence, heartburn, palpitation of the heart, liver complaint, diarrhœa, dysentery, colic, and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin, Scald Head, Salt Rheum, Erysipelas, White Swellings, Fever Sores, and all ulcerations internal and external? It is nothing under heaven, but an acid substance, which sours, and thus spoils all the fluids of the body, more or less. What causes Rheumatism but a sour or acid fluid, which insinuates itself between the joints and elsewhere, irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases, of impurity of the blood, of deranged circulations, and nearly all the ailments which afflict human nature.

Now is it not horrible to make and sell, and infinitely worse to use this

SOURING, FERMENTING, ACID "COMPOUND" OF S. P. TOWNSEND,

and yet he would fain have it understood that Old Dr. Jacob Townsend's Genuine Original Sarsaparilla, is an IMITATION of his inferior preparation!!

Heaven forbid that we should deal in an article which would bear the most distant resemblance to S. P. Townsend's article! and which should bring down upon the Old Dr. such a mountain load of complaints and criminations from Agents who have sold, and purchasers who have used S. P. Townsend's FERMENTING COMPOUND.

We wish it understood, because it is the absolute truth, that S. P. Townsend's article and Old Dr. Jacob Townsend's Sarsaparilla are heaven-wide apart, and infinitely dissimilar; that they are unlike in every particular, having not one single thing in common.

As S. P. Townsend is no doctor, and never was, is no chemist, no pharmaceutist—knows no more of medicine or disease than any other common, unscientific, unprofessional man, what guarantee can the public have that they are receiving a genuine scientific medicine, containing all the virtues of the articles used in preparing it, and which are incapable of changes which might render them the AGENTS of Disease instead of health?

But what else should be expected from one who knows nothing comparatively of medicine or disease? It requires a person of some experience to cook and serve up even a common decent meal. How much more important is it that the persons who manufacture medicine designed for

WEAK STOMACHS AND ENFEEBLED SYSTEMS,

should know well the medical properties of plants, the best manner of securing and concentrating their healing virtues, also an extensive knowledge of the various diseases which affect the human system, and how to adapt remedies to these diseases!

It is to arrest frauds upon the unfortunate, to pour balm into wounded humanity, to kindle hope in the despairing bosom, to restore health and bloom, and vigor into the crushed and broken, and to banish infirmity that OLD DR. JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his

Grand Universal Concentrated Remedy

within the reach, and to the knowledge of all who need it, that they may learn and know, by joyful experience, its

Transcendent Power to Heal.

Principal Office 102 Nassau-st., N. Y. City.

Wilder's Patent

SALAMANDER SAFES

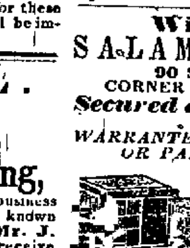

90 STATE STREET,

CORNER OF MERCHANTS' ROW.

Secured against Gunpowder

....AND....

WARRANTED NOT TO INJURE BOOKS OR PAPERS BY DAMPNESS.

THESE are the only Safes (WILDER'S PATENT,) that have in every instance preserved their contents when exposed to large fires, like the burning of the Tribune printing office in New York city, and many others, too numerous to mention.

The above Safes are manufactured and for sale by JOHN E. WILDER, Boston, and for sale in Bangor, at the manufacturers prices, by

FISKE & DALE.

☞ **The Following Letter** from the Superintendent of the Maine Telegraph Company, is another proof of the superiority of JOHN E. WILDER'S Safe over all others:—

BANGOR, Oct. 24, 1849.

John E. Wilder, Esq—

Dear Sir—The Safe I purchased of you was exposed to a great degree of heat at the burning of the Telegraph Office, in this city. It was in the fire six hours; the books and papers were uninjured, and the damage to the Safe very slight, although it fell from the second story to the basement of the building. The little repairs necessary to the Safe have been made, and we shall not need to return it. It is still as good as new.

Respectfully yours, JAS. EDDY.

Nov. 22, 1849. d6mis

REPORT

OF THE

SUPERINTENDING SCHOOL COMMITTEE.

It becomes the duty of the Superintending School Committee, at the close of the municipal year, to lay before you a report on the state of the public schools in the City.

In compliance with this duty, we respectfully submit to you a brief review of the present condition of the schools and their wants for the ensuing year.

At the commencement of the spring term, the teachers of the annual schools were all, except Mr. S. Bowler who had charge of the Select school for boys, continued in their respective schools. He declined further engagement. A gentleman of enlarged experience in teaching, who was favorably known to some members of your committee, from the fact of his having, very satisfactorily, taught one of the District schools, the previous winter, was selected as his successor. Owing to some untoward circumstances, his success did not equal his wishes, nor our expectations. After remaining in the school about two months, he resigned and withdrew from the school. We attribute his want of success to the concurrence of several unfortunate circumstances, which it was impossible for him to control, and for which he was not responsible.

Mr. James M. Palmer, a graduate of Waterville college, was appointed to the vacancy made by his resignation. The school under his judicious management, was soon reduced to order.—The lads under his care are not surpassed in obedience and propriety of conduct by those in any other school in the city. Mr. Palmer has an aptness in teaching, as well as in governing a school. We cheerfully recommend him to the favorable consideration of our successors.

We consider ourselves as having been very fortunate in obtaining good female teachers for the several District schools during the summer term. They all labored faithfully, and gave very general satisfaction in their several schools. We were not equally successful in our selections for the winter schools. A young gentleman of talent and education, was employed for the school in District No. 2. He remained in the school two weeks, and resigned. He failed in securing proper discipline. His successor manifests much energy in the management of his school.

District No. 3 has had three teachers in succession. The first and second resigned, on the alleged ground of ill health.—It would seem that the climate in that section of the city is not very salubrious. The third, however, has had his way for the remainder of the term, and was a very acceptable teacher.

Some difficulty arose in the early part of the school near Mount Hope, from the indiscretion of a few disaffected persons. Complaints of rashness and an undue severity, were made against the teacher. After a full investigation of the case, he was unanimously sustained by the committee, and exonerated from all blame. The persons who prefered the charges were present at the investigation, and with one exception, cheerfully acquiesced in our decision. The dissatisfied person withdrew his children from the school; but it went on quietly and profitably the remainder of the term. The children withdrawn, not only lost the benefits of a good school, but they received a great injury by the encouragement given them to find fault with their teachers. No discreet parent, who duly regards the welfare of his children, can, for a moment, indulge them in this pernicious habit. The child who is unduly indulged in it, is ruined, or if he is not, it is not the merit of his parent.

The schools, at the City Mills, are in a flourishing condition. The large scholars were under the instruction of Mr. J. W. Coombs, who evinced much tact and skill as a teacher. He has a happy way in awakening and quickening the dormant faculties in the minds of his pupils, and, at the same time, of securing their obedience and respect.

The schools in the city proper, were never in a better condition. The recent examinations were highly satisfactory. It may not be improper to remark in this connection, that the examinations are what they purport to be. They are not public shows got up for effect, in which the pupils are made to perform the parts of automatons, for the amusement of the spectators. As the committee usually conduct the examinations, no scholar can know, beforehand, in what portion of his exercises he will be called to recite, or what questions will be put to him. Yet the readiness with which the questions are usually answered, evinces clearly enough, that the scholar has been well and thoroughly taught. We think there has been, within the year, a decided improvement in accuracy and thoroughness in every branch of study pursued in our public schools.

During the past year we have been very much gratified with the increased attention to the important subject of correct and elegant reading. The children in the primary schools are better readers now, than those in the second or third grade of schools, were a few years ago. Perhaps they do not know the names of so many hard words, but they can call those they do know by their *proper* names, and pronounce them correctly and intelligibly. The modulation of the voice is also cultivated. This is as it should be. It is not enough that the words of a composition be simply pronounced. The proper employment of pause, emphasis and varied intonations to express the sense and spirit of an author, is, in fact, a great study, and when attained, is a great accomplishment.

During the last term, Professor Mandeville, of Hamilton College, New York, gave a course of lectures on the subject, which were generally attended by our teachers. So far as we have become acquainted with his system and method of teaching, and with the course of reading books prepared by him, they meet our entire approbation. There are some serious defects in all the reading books now and formerly used in our schools. We think Mandeville's series would be preferable to those now in use; and we would respectfully call the attention of our successors to the consideration of the subject of introducing them into our schools.

There has also been, within the year, considerable improvement in the deportment of the scholars in most of our schools. They have, with few exceptions, been quiet and orderly. Hardly a case of stubbornness has occurred in any one of our annual schools during the winter term. The young men in the Apprentices School, particularly, have been very regardful of the rules of propriety, while in attendance at school.

But notwithstanding the excellence of our schools, there is much juvenile depravity in the city. Profanity is very common among the boys and youth. Many lads are so addicted to the use of profane language, that they, apparently, are not aware when they indulge it. We are glad to notice that public attention has been directed to the subject. It has already done much good. The boys in several of the schools, have voluntarily drawn up and signed pledges, agreeing, henceforth, to refrain from profane or vulgar language. One little fellow, who had become a victim to this habit, signed the pledge, but in an unguarded moment he broke it. He cut himself short in the midst of a sentence, and reproved himself severely, thus evincing a determination to persevere in the right.

The public will be likely to inquire whether our Teachers are alone, or in part, responsible for this state of morality. We believe they are not. We think the teachers, both male and female, endeavor to impress on the minds of the children and youth committed to their care and instruction, the great principles of morality and justice, and to enforce the practice of all the cardinal virtues. Thus, and other vices exist, in spite of our schools. "There is a power," even "behind the throne" of the school-master—the power of bad example. Its influence is all but omnipotent. We are continually influencing others, and they in turn, are influencing us. We may not be aware of it, but our ignorance does not change the fact.

The youth who are most in the habit of using profane language, are very irregular in their attendance at school. Many of them do not attend at all. Their favorite school is some low haunt of vice, where they meet and revel in impurity. This place is their school house. There they receive lessons that counteract all the influence of the school master. But this is not all nor the worst. When they return to their school, they poison the youthful minds there with their immoralities. Unless something is done for this class of boys, unless they are restrained from frequenting these places of vice, it will be in vain for the teachers of our schools to impress on their minds the principles of morality.

Bangor is peculiarly distinguished for her liberality in support of her public schools. Her citizens have in them a just pride. There has been no grudging, and no flinching when money has been asked for. But the moral and religious influence of her citizens has never been properly exercised in elevating and purifying them.

There is one other kind of juvenile depravity to which we would particularly call your attention. It is the marking, cutting, chalking and defacing school houses and fences, and the careless, and in some cases, the willful injury committed on the school house and school furniture. Within the last year, a very large sum has been paid for setting glass broken out by idle mischievous boys. It is principally done by the class of boys who frequent those haunts of vice. They seem to regard the school house, and more especially the windows, as designed for no other purpose but to be stoned. As many as twenty or thirty lights have been destroyed at one time. We think the most rigorous course should be pursued with those who thus wantonly and wickedly destroy public property. One youth has recently been arraigned before the Police Court for injuring the brick school house at the City Mills, and sentenced to imprisonment in the County jail, and to pay the costs of prosecution, amounting to something over six dollars. There is proof against several other boys of their having committed similar offenses, and they will be speedily dealt with agreebly to law. In closing this branch of our report, we would, unitedly, urge upon our teachers to use their best efforts to check this species of mischief.

The number of persons between the ages of four and twenty-one years, residing in the city on the first day of May last, as reported by the assistant assessors, was 5127. On the first day of May previous there were 5214. It will be perceived that the number on the first day of last May, was less, by eighty-seven than it was on the first day of May the year previous. The number of scholars who attended school more or less during the summer term was 3414, which was less by 78 than the corresponding term the previous year. The average number was 2306. The per centage of absences was 32 16-100, being 6-100 more than the previous summer term.

The number of scholars belonging to the schools the fall and winter terms, was 3394, and their average attendance, 2502.—Hence the number attending school was less by 132 than the previous winter, while the average number was larger by 123. The per centage of absences was 26 28-100, being a gain of about 6 per cent over the average of last winter. This improvement in average attendance at schools, is very gratifying. We think there would also have been an increase of attendance in the summer terms, but for the cholera, which made its appearance before the close of some of our schools.

This irregularity in the attendance of scholars is a serious hinderance to the progress of the schools. We are constrained to believe that there is no reasonable excuse for the great majority of absences. The correction of this evil is in the power of the parents. Their children, in most cases, are not detained from school to perform necessary work, or even, any work at all. Parental indulgence permits them to stay from school, and run about the streets, and employ their time in committing petty vices. This is the class of boys who destroy the school furniture, break the windows, and mar and deface the school houses and fences, and who, by their example, introduce vulgarity and profanity into the schools.

We append to the report a table showing the number of scholars belonging to each school the fall and winter terms with their daily average attendance.

The amount of money appropriated for the erection of school houses was $4500. Of this sum $4236 92 have been expended in the following manner: 928 18 in grading the lot at the corner of Essex and York streets, moving the school house, and in putting under it a brick basement. This work cost somewhat more than was anticipated when it was commenced. But it is believed the money was profitably expended. By grading the lot the whole of it is rendered fit for a play ground for the children, and the house which before was much exposed to be racked by the frost, has now a substantial and permanent foundation. The school room erected, is large and convenient.

The house for the Girls' Select school, cost $3308 74. It has two rooms, larger than any other school rooms in the city.—The upper room is occupied by Mr. Littlefield's school. The interior arrangements are far superior to any room previously constructed in the city. The seats and desks are neat, the black boards for illustrations, are ample, extending entirely around the room, and there are also book cases for a library, and drawers and chests for apparatus and maps. Each scholar has a place for her own bonnet and outer clothes, and her rubbers and umbrella. We will likewise add, the important subject of ventilation was not neglected. The room is well supplied with the means of ventilation. The other room is designed for a Select school to be taught by a female.

The whole amount of money appropriated at the commencement of the year for the support of the public Schools was

		12,000 00
Bank Tax received from the State,		585 90
Total,		12,585 90
Sum expended is,		11,587 21
Balance unexpended,		998 69
The amount paid for instruction is,	9362 08	

The remainder of the sum expended exclusive of $25 25 paid for apparatus, was for repairs, wood, books furnished poor children, and other necessary and contingent expenses. The repairs made on the school houses during the year have been very extensive. Several school lots have been wholly or partially fenced, and three wood-houses have been erected. The cost for repairs the next year will be much less than it has been the present.

There has been only one additional permanent school established this year. There are now 45 schools in the city, 28 of which are annual. We should have opened a school in the vacant room under Mr. Littlefield's, had it been finished earlier.

Four new school houses are much needed, if not indispensible. The brick school house near the City Mills does not afford suitable accommodations for so large schools as are kept in it. The rooms are both small and low posted. There is no chance for ventilation. The air is consequently very bad, and must seriously impair the health of the pupils and teacher. Mr. Coombs, whose school was in the upper room, was hardly able to go through with his school, solely on this account. Though he likes the school he would not consent to take charge of it, in that room another winter. The house is sadly out of repair and cannot be kept in good repair.

The erection of a large double house on Grove street is also recommended. A house on that street would relieve, somewhat, the crowded state of the schools on Pine, York and State streets. A lot in that location is already contracted for, and it is hoped that early measures will be taken to complete the negotiation and erect the house.

A house continues to be needed on Third street. The school on that street has been kept in a hired room. It is small and inconvenient, and the owner is very reluctant to have it used another year by the City.

We also renew our recommendation for another school house in Barkerville. The school in that [illegible] mer for one teacher, and for the last [illegible] been under the necessity of hiring a room for [illegible]

Most of the annual schools in the city [illegible] nine primary schools have in them [illegible] grammar schools for boys have belonging to them [illegible]

We recommend for the ordinary expenses of the high schools the ensuing year, the appropriation of $[illegible] for the salary of the teacher of the high school for boys, $[illegible] for the salary of the teacher of the high school for girls, $100 for his assistant, and $50 for wood and contingent expenses, and the further sum of $150 for apparatus.

We also recommend the appropriation of the sum of $10,000 for the support of the common schools. This is the minimum sum that can be got along with. One additional school will be opened the commencement of the next term, and two others, at least, must be established as soon as the house can be erected for them.

TUESDAY, APRIL 2, 1850.

Conviction of Professor Webster.

We announced in the most of our edition of yesterday, the information we had received by Telegraph, of the conviction of Professor John W. Webster for the murder of Dr. George Parkman. The circumstances of this murder, the high standing of the parties, the place of its perpetration, the motive which could have prompted it, together with the straightforwardness of the trial, and finally the conviction, have taken deep hold of the public mind, and cannot but make a lasting impression.

The case proves that in practice as well as in theory, no man is above the law. This is a good impression and one very much needed. Had Prof. Webster been acquitted, as many supposed he would be, there would have been an unfavorable and unfortunate lack of confidence in the impartialities of the law.

There are many moral suggestions growing out of this case, worthy of the most serious attention. It strongly teaches the importance of being internally right: that our world within, is to us all, the true world and the only real; and when we forsake this, for social positions, for keeping up appearances, for seeming what we are not: then dangers thicken and threaten to encompass and overwhelm, and there is no security. How vastly important for those not hopelessly poor and dependent, to keep their expenses within their income, to live within their means; and if poor, that they do not become proud.

The conviction of Prof. Webster is a heavy blow to a large circle. It serves to lessen, in no small degree, reliance upon reputation, and a good reputation with the great mass is sought with great pains-taking, and sometimes even at the expense of character. It is unfortunate for mankind, that so great a shock should have been given to reputation, as this case has produced. May the result be, that it shall make all more solicitous as to character.

Professor Webster was, doubtless, one of the most thorough and accomplished chemists in this country, and the loss to this department of science is very great in the loss of such a man. How important, then, let all bear in mind, it is that, in gathering wisdom in science, it be consecrated to true usefulness, and baptized with the moral sentiments, and devoted to virtue and usefulness.

These are among the few obvious suggestions of this verdict. The crime is one, which, under any circumstances, is calculated to make men shudder, and, under all the circumstances, to overwhelm the community in which the parties lived, with the blackness of despair.—"Lead us not into temptation"; and "Keep thy servant from presumtuous sins," may well be the morning and evening prayer of all the sentient creatures of God.

Mr. Clingman, of North Carolina, has replied in the Republic, to the speech of his colleague, Mr. Stanley, as it was published in that paper. He speaks of the means which he, and those who act with him, will adopt to hasten a disposition of the slavery question, one way or the other, during the present session of Congress. They will call the ayes and nays on every motion as it comes up in the House as they did on a former occasion, and in this way, defeat all legislative action. They will also refuse to pass any appropriation bills, for the army and navy. He will recommend these tactics to be followed till March 4, 1851, if necessary. If these plans are followed he thinks there would be a powerful party formed in the South, which would put down both free-soilism and abolitionism.—Mr Stanley has rejoined with his usual tartness and point.

☞ At the meeting of the City Council yesterday, Richard Potter was chosen Assessor to fill the vacancy occasioned by the declination of Isaac W. Patten; and John Ham chosen Commissioner of Streets.

☞ The Board of Aldermen appointed the following Watchmen; James H. Steward Captain; Tobret Webber, Wells A. Roach, Wm. S. Gilman.

☞ It seems to be pretty certain now that another enterprise is on foot for the invasion of Cuba. The rendezvous is at Chagres, and of course out of the jurisdiction of this government. A warm reception, doubtless awaits any expedition against the authorities of that island, as they are well apprised of their dangers, and have a large military force at their disposal.

☞ We learn that Mr Morris, whom Mr McDonald has published as an Imposter, and which was noticed in our paper a few days since, refused to take the funds collected by the three Congregational churches here and recommended that the money be placed in the hands of the Young Men's Bible Society. There may be some irregularity in the proceedings of Mr. Morris but we doubt whether he is a rogue.

☞ The town of Skowhegan, for the purpose of effecting a change in their road system have authorized the select men to appoint a certain number of Agents in different parts of the town whose duty it shall be to employ men to repair the highways, at a fair compensation for cash, and to look after and keep the roads in good condition summer and winter.

☞ James McLaughlin, Esq. of this city, the successful grower of the seedling plum known as the 'McLaughlin,' and which has been approbated by the highest pomological authority in this country and in England, as a first class plum, has [illegible] d fifty dollars for the mother tree, a large, thrifty and excellent bearer. [illegible] r fused.

☞ Th [illegible] out in large numbers [illegible] premonitory symptoms of the [illegible]. They have determined to have [illegible] on the 10th inst.

An American [illegible] the navy well known in New York has lately by the death of an a[illegible] his in England become the heir of property worth £15,000.

Trial of Professor John W. Webster on the charge for the Murder of Dr. George Parkman.

MR. CLIFFORD'S ARGUMENT FOR THE GOVERNMENT.

Mr. Clifford began his address to the Court and Jury, by saying that he expected that every thing that human power could bring to bear upon the subject, in order to deliver the defendant from the charge of the Grand Jury, would be done. In that expectation he had not been disappointed. The transcendent ability of the closing argument for the defendant had shown that every thing had been done that could be done.

He had another hope if not expectation. He had hoped that the defendant would have afforded some explanation of the circumstances that seemed to be sealing his doom. He said it sincerely, and he grieved to say that that hope had been entirely disappointed.

He called the attention of the Jury back to the commencement. He recurred to the outline which he had given of the facts that he expected to prove, and he asked them whether that outline had not been filled up, and whether the inferences which he then forebore to make, were not pressing upon their minds with irresistible force.

He asked the Jury what explanation had been made of these facts. The prisoner, tho' in his cell, had not been the forlorn and friendless man was represented to be. He was not the victim of prejudice. He put it to the Jury whether the very opposite state of things had not existed to an unprecedented degree;—whether there had not been from the beginning an almost irresistible reluctance to admit the prisoner's guilt. From the time those remains were found on his premises, under his lock and key, it had been a strange and unprecedented history.

The Coroner's Jury had been held in secret; and before the government had a sight of the testimony upon which the Jury made up its verdict, it was placed in the hands of his counsel to prepare for his defence. It did not become his counsel to come here and complain of his treatment. There was never a prisoner that had received more favor from the government. There was not a fact but was freely communicated to them.

The allusion that was made to his being in his cell, and a secret inquest held against him, and a secret investigation before the Grand Jury, was unjustifiable. Recollect, there was another occasion, where he was present, with able counsel, where he kept his mouth shut, virtually saying, "I am content, not only to offer no testimony, but not even to ask for the testimony against me." The defendant was brought into this house for a preliminary examination, where he might have demanded of Government the proof.

The Attorney General said he put it to the Jury whether they would not have demanded the proof. Would they have said they were content to go into solitary confinement to wait for the Government to get ready for trial—to leave that good name which they had been building up for 60 years to infamy—to leave their family to suffer the most excruciating agony.

The time had now come for an explanation; and what was it? He must bear in mind that the evidence put in here applied to but four points, and these four points were to support four hypotheses.

In the first place evidence had been put in to show the character of the prisoner. That was admitted—that he had an outside character. Then they had attempted to show that his being locked into his laboratory was no unusual circumstance. The third point was to show his own conduct during the week after the disappearance of Dr Parkman and his own arrest.

The fourth point was, to contradict the whole testimony, to show that he was abroad on Friday afternoon, after meeting Dr. Webster in the laboratory; and that was all. Then there was an attempt to show another hypothesis which he should notice hereafter.

The constitution of our country had for its highest object the protection of life; and we had a system of laws under it to secure this end. And if there was ever a case where the ability of that system of laws to secure this result was to be tested, this was a case.

Dr Webster had a different education, and has moved in a different sphere from those who usually were seen in the prisoner's dock; and we were now to test the question, whether the law was powerful over the weak, and impotent to hold the powerful.

He examined very fully the evidence and revised very closely the positions of the opposite Counsel.

CONGRESS.

Friday, March 29.—The Senate was not in session.

In the House, Mr Winthrop presiding, Mr. Hilliard moved that when the House adjourn, it be until Monday—carried.

Mr Lane then moved that the House adjourn, on account of its being 'Good Friday.' This was objected to by a vote of 67 yeas to 109 nays.

The House then proceeded to the consideration of the bill providing for the relief of the captors of the frigate Philadelphia. Laid on the table.

The committee to investigate the charges made by Mr King, against the Speaker, reported in favor of exculpating the Speaker from Mr King's charges. The House accepted the report and adjourned.

California Gold. Thomas Butler King in his official report of his mission to California, estimates the value of gold obtained in that State, up to this time, at forty millions of dollars. The product of 1850 he estimates at forty millions; and the aggregate product of the two succeeding years, 1851 and 1852, at one hundred millions. He recommends Government not to sell gold lands, but to grant leases, or permits, for digging and washing gold, at a rent of one ounce for every pound obtained.—He proposes that leases for regular mining operations be granted at a fixed contingent rent. He advises that no permits or leases be issued to any but citizens of the United States, or persons who declare their purpose of becoming U. S. citizens.

Concord Improvements for 1850. We learn that rather extensive plans for building, the ensuing season, are on foot, and the prospect is that there will be as many or more new buildings erected in this place, in 1850, than were erected in 1849. A lot of land less than 6 rods square was sold in this place for $8,600, upon which is to be erected a splendid block for stores and offices. Foundations for other buildings in different parts of the village are contracted for, some of which will be handsome residences. [Concord (N. H.) Statesman,

Died in Newburyport 23d ult., Miss Sarah F Chipman, of Waterville, aged 18. This is the young lady who took passage in the ship California Packet for California, and left the ship in [illegible] a few days since, and came up in [illegible]

In San Francisco Jan, 11th, Mr. J. R. Foster, of E Machias.

On Saturday last the schooner Tippecanoe, Clark from Philadelphia, was capsized in Chesapeake Bay, off Chester River, by which accident the Captain and two others were drowned, one person was saved.

The Members of the Mississippi Legislature have sent a written protest against the acts of their Legislative Convention in electing delegates to the Nashville Convention, as tending to subvert the dignity, harmony and perpetuity of the Union.

Foreign Policy of Great Britain.

The foreign policy of England has ever been marked by a spirit of aggression, a spirit which, while it fears and evades the stronger, is utterly regardless of the rights and privileges of weaker nations. A continued accumulation of foreign possessions, a commercial and manufacturing monopoly, are her leading aims and purposes. She has no scruples in forcing a foreign power, at peace with herself and the rest of the world—a power which, from the earliest ages, has maintained and cultivated a spirit of non-intercourse and non-intervention in the affairs and projects of other nations; in compelling an unobtrusive people, by blockading their coast, and by a bombardment of their chief port, to receive first her opinion, and then such of her other manufactures as she could crowd upon a nation content in subsisting upon its own resources, and supplying itself with the products of its own labor and skill. She has no scruples in subjugating all India, from the Ganges to the Indus, from Cape Camorin to Punjab; in retaining Ceylon, and laying claim to the Coast of Burmah. She hesitates not to take under her protection the Musquito King or any other King, through whose instrumentality, there exists even the shadow of a possibility, that she may attain new accessions of territory, new tributary provinces, or any efficacious method of checking the progress of other nations. During these aggressions and meddlesome interventions—all of which are of comparatively recent date—we have looked anxiously and expectantly for a change of policy, for a manifestation on the part of England, of a more lenient and forbearing spirit—a spirit better comporting with the standing she holds in list of nations, and in the scale of humanity and civilization. But thus far have we looked in vain. We have hoped only to be disappointed.

The last and not least flagrant act of British aggression is a wanton attack upon the little and almost helpless kingdom of Greece—the blockade of its ports, and the seizure of its war and merchant vessels. Whatever may be the motives which have induced Lord Palmeston to pursue this line of policy, his conduct, we think, can, on no justifiable grounds, be vindicated.—Whatever petty indignity the British government may have suffered, we may rest assured, that the capture of the Greek Islands and the investment of the Peninsular by an armed fleet under Admiral Parker, will not only bring upon it the frowns and censures of the civilized world, but that the movement will in no wise be sustained by popular sentiment in England.

Already the mediation of France has been offered. Russia and Austria have indirectly proffered aid to the Greeks; but nothing, however, that will be likely to avail them in so unequal a contest has yet been extended to them.

The many interesting associations that cluster around this little spot of earth will awaken in its behalf the sympathy of the learned and patriotic in every land under the whole heavens. It was in this cause of this consecrated land, down trodden and oppressed, that the voices of the two greatest of living orators, Clay and Webster, were raised in strains of eloquence never surpassed, and seldom equalled save by themselves. It was while Greece was struggling, almost hopelessly, to disengage herself from the relentless grasp of Turkish tyranny, of Moslem cruelty and oppression, that France, Russia, and even England herself came to her rescue and helped strike off her fetters. It was on her soil, as a messenger of mercy to an oppressed race, that Lord Byron fell a victim, and that too, before the oppressor had relaxed his grasp; and his highest wishes were answered.

May England pause in her unjust course; and let not Greece be the theatre of such scenes as have been enacted in Poland and Hungary.

Seductive Nature of Vice.

A short Chapter for the Perusal of Young Men.

It is one of these wise maxims of the Bible, that men should 'avoid the appearance of evil.' They should learn to shun it in its very beginnings. If they do not, they are in great danger. They know not where they may be led. The perpetration of one crime prepares the heart for the commission of others. He who trembled with fright at his first departure from the cause of virtue, will soon learn by hardening his conscience, to sin without restraint.—Men become accustomed to things. The tenderest skin, the softest hand, the fairest flesh will become hard and calloused by manual labor; and so the most sensitive conscience will be benumbed by indulgence in sin. Avoid the very beginning. Say to Satan, on his *first* temptation, 'get thou behind me.'

Young men are but little aware of the seductive nature of vice. They need the counsels of their father and guardians, and those who watch over them. What more beautiful sign is there, than an upright, moral and religious young man,—one sternly devoted to his study and the basis of whose character is integrity? So, on the other hand, what more melancholy spectacle, than that of a young man, who has talents to make himself useful, the pride, the joy of his doating, confiding, unsuspecting parents, brothers and sisters, who gives himself up to sin? O God! what sighs! what heart achings! what anguish he occasions! Let young men remember this one fact, (if they wish to be useful and happy) that vice, to be successfully resisted, must be resisted in the beginning. It cannot be tampered with. He who permits himself to tamper with it, will most probably be ruined.

Go with me, young man, to yonder gloomy pile of granite. See its high and close walls, its iron gratings, the sentinels at their posts.—This is the State Prison. Let us enter and look around upon its inmates. Think not that they are all demons. There are men here who have as fine feelings as those which glow in your own breast. See that one's cheek mantle with shame as he catches your eye. He probably knows you; he thinks you have recognized him, although he is in the disguise of the prison dress. How came he here? He did not suspect at his outset in life, that this disgrace awaited him! But alas! for him, he did not resist *the beginning* of evil. His first offence (as he confessed) was a small one, and unluckily he did not get detected in it. He sinned again and again, and detection did not immediately follow. The chill which had passed over him, at the commission of his first offence, he did not afterwards feel. He soon came to think it safe to sin; and he followed up his evil practices, until he was detected.—He had no friend to whom he could appeal.—The stern mandate of the law was pronounced against him, and *here he is*. Poor fellow! he had every appearance of being a very likely young man. Who would have said, ☞ that young man is a candidate for the prison? He is ruined! with all his talents, with all his noble figure, with all his amiability, he is ruined; for how shall a young man recover himself who has once been an inmate of a prison? He cannot wash out the stain from the sight of men. God may forgive him; man may forgive him; but he cannot undo what he has done.

We say again to young men, avoid the appearance of evil. Avoid every thing that will lead to sin. Avoid all extravagance; avoid all expenses which your legitimate income will not meet; avoid every thing of every nature whatsoever which can possibly tempt you to do wrong. Learn to practice self-denial.—Greater is he that ruleth his own spirit, than he who taketh a city. You must learn this lesson at sometime in your life; and the earlier you do it, the better. And now, young man, we are about to close this chapter of advice,—but we pray you, as you regard your own well being, as you love your father, your mother, your brothers and sisters, give heed to what we here say to you, lest you overwhelm them in sorrow.—[Boston Trumpet.

Anecdote of a New Foundland Dog.—A gentleman connected with the New Foundland fishery was once possessed of a dog of singular fidelity and sagacity. On one occasion, a boat and crew in his employ were in circumstances of considerable peril, just outside a line of breakers, which, owing to some change in the wind or weather, had, since the departure of the boat, rendered the return passage through them most hazardous. The spectators on shore were quite unable to render any assistance to their friends afloat. Much time had been spent, and the danger seemed to increase rather than diminish. Our friend, the dog, looked on for a length of time, evidently aware of there being great cause for anxiety in those around. Presently, however, he took to the water, and made his way through to the boat. The crew supposed he wished to join them, and made various attempts to induce him to come on board; but no! he would not go within their reach, and continued swimming about a short distance from them. After a while, and several comments on the peculiar conduct of the dog, one of the hands suddenly divined his apparent meaning. "Give him the end of a rope," he said; "that is what he wants." The rope was thrown—the dog seized the end in an instant, turned round, and made straight for the shore, where, a few minutes afterwards, boat and crew—thanks to the intelligence of their four-footed friend—were placed safe and undamaged. Was there *reasoning* here? No acting with a view to an end or for a given motive? Or was it nothing, but ordinary *instinct*?—[Rev. J. C. Atkinson in "The Zoologist."

How to make a Fortune.

Take earnestly hold of life, as capacitated for, and destined to a high and noble purpose. Study closely the mind's bent for labor or a profession. Adopt it early, and pursue it steadily, never be looking back to the turned furrow, but forward to the new ground that ever remains to be broken. Means and ways are abundant to every man's success, if will and action are rightly adapted to them. Our rich men, and our great men, have carved their paths to fortune and fame by this eternal principle—a principle that cannot fail to reward its votary if it be resolutely pursued. To sigh or repine over lack of inheritance is unmanly.—Every man should strive to be a creator instead of an inheritor. He should bequeath rather than borrow. The human race, in this respect, want dignity and discipline. It prefers to wield the rusted sword of valorous forefathers, to forging its own weapons. This is a mean and ignoble spirit. Let every man be conscious of the God in him, and the providence over him, and fight his own battle with his own good lance. Let him feel that it is better to earn a crust, than to inherit coffers of gold.—This spirit of nobility, once learned, and every man will discover within himself, under God, the elements and capacities of wealth. He will be rich, inestimably rich in self-resources, and can lift his face proudly to meet the noblest among men.—N. Y. Sun.

☞ Touched at Port Praya, Cape de Verd Islands, Jan 4th, bark Byron, Foss, 50 days from Castine for California.

The Queens of England and Spain are both officially announced as in an 'interesting situation.'

An Unfortunate Typographical Blunder. By the breaking off of the head of the letter *h*, or substitution of the letter *n*, a very tempting advertisement to invest in certain railroad stock was entitled "Purchase of Railroad Snares!"

A bill to divorce Mr. Edwin Forrest from his wife Catherine, has been defeated on the final vote (to reconsider) in the Senate by one majority—yeas 16, nays 17.

NOTICE.

THE regular meeting of Cynosure Division, S. of T. No. 11, has been changed, permanently, from Friday to Monday evening of each week. Brethren are requested to take notice and govern themselves accordingly. E. H. DAY, R. Sec.

Bangor, March 30, 1850. 1w

☞ **JOB PRINTING of all kinds—Pamphlets, Catalogues, Shop Bills, Bank Checks, Placards, Concert Bills, Visiting and Business Cards Posters, &c., &c.—neatly and promptly executed at This Office, upon moderate terms.**

C. P. FESSENDEN'S WRITING ACADEMY open day and evening, at *No 74 Main Street*. Mr. Fessenden, thankful for the flattering patronage bestowed upon him (and having located himself permanently in this city, as a teacher of penmanship) would solicit a continuation of the patronage of all those who wish to acquire an easy, rapid and graceful system of writing, fitted for the counting room, or for ladies in epistolary correspondence. Those wishing to fit themselves to teach, will be fitted upon reasonable terms. Cards marked to order with neatness and despatch. Terms for 12 Lessons,—Gentlemen, $1,50 Ladies 1,00. Payment in advance 4m mar 12

'TIS STRANGE, BUT TRUE! That many will *neglect a Cough* month after month and then wonder at last they have CONSUMPTION.—How much wiser to nip this disease in the bud, *which can always be done* by using *Dr. A. Rogers' Syrup of* LIVERWORT, TAR, and CANCHALAGUA. "A stitch in time saves nine." ☞ See long advertisement in another column. 3lawd&wlm mh 27

CURE FOR WHOOPING COUGH. At this season of the year when Whooping Cough is prevalent, every family should be provided with a bottle of DOWN'S ELIXER—which is the surest remedy known for that distressing complaint! It loosens the Cough, promotes expectoration, soothes the irritated organs of the Lungs and Throat, saves hours of hard coughing, and restores the patient to health in much less time than any other known remedy. Down's Elixer is also the most effectual known remedy for every species of Cough and Lung Complaint.—[See advertisement in another column.] Sold by Druggists and dealers in medicine throughout the country. mch4 d&w6w

OYSTERS. IT is the decided opinion of very many persons well qualified to decide that GEORGE FARRINGTON'S Establishment is certainly the best place to obtain your OYSTERS for family use. Citizens, do call at FARRINGTON'S famous *SALOON*, if you know where you are well used, for it is at this place where OYSTERS of an excellent, fresh and superior quality can be bought by the barrel, quart or pint, or in any other quantity. Furthermore, at this great Emporium, OYSTERS are received every week, direct from New York, and no mistake

There is but one place in this our city,
Where Oysters are bought and is'nt it a pity;
'Tis true indeed, and that I will pronounce,
There's a difference in quality which you'll not denounce
G FARRINGTON'S the man who'll supply our wants
In this great delicacy, as every man counts.

East end Kenduskeag Bridge, two doors from John Low's Old City Market. GEO. FARRINGTON. Bangor April 2, 1850. d&wlw

TELEGRAPHIC
EXCLUSIVELY FOR THE WHIG AND COURIER.

Prof. Webster Convicted of Murder by the Jury.

Boston, April 1.

The Jury retired at 8 o'clock Saturday evening to consider their verdict. Near 11 o'clk they returned to their seats and the Court came in immediately. By their foreman they returned a verdict of guilty and the prisoner was removed to jail to await his sentence. The Court then adjourned to 9 o'clock this morning. The April term of the Municipal Court will commence to-day. The April term of the Court of Common Pleas for the County of Suffolk will commence to-morrow morning.

Sentence of Prof. J. W. Webster.

At about 5 minutes past 9 o'clock, the prisoner was brought into the Court-room by officer Jones. His appearance indicated much mental suffering, but he endeavored to appear calm. The attorney moved that the sentence of the law be now pronounced upon the prisoner. His language was feeling and pathetic. Chief Justice Shaw then asked the prisoner if he had anything to say why the sentence of the law should not be pronounced. The prisoner signified that he had nothing to say. The Judge then, in a feeling manner, proceeded to give the sentence of the law, as follows:

That Jno. W. Webster be remanded to the prison in this county, there to remain in close custody till the day of execution. Upon hearing the sentence the prisoner droped his head and wept bitterly. All the Court room were deeply affected. Profound silence remained in the Court room broken only by the sobs of the prisoner. After a few moments violent grief he assumed his usual composure. At half past nine he was placed, in the custody of Sheriff Eveleth and remanded to prison. There were few in the court room that were not deeply affected.

New York, April 1st.

Gen Cooley Secretary of La. died at New Orleans 21st.

Mr Calhoun died yesterday at 7 o'clock A. M, as easy as an infant and was perfectly concious although he could not speak until he expired. His last words were, I am resting now very easily. A Bust of the deceased has been taken since his death.

Congress will probably adjourn until Thursday next.

N. Y. Markets.

2 P. M.

Cotton.—Sales 800 bales and the market is firm.

Flour—less buoyancy, about 800 bbls. sold at former prices. Southern dull and heavy.—Rye flour steady: sales 400 bbls at $2,81¼.

Good demand for wheat for milling but owing tothe firmness of holders there has been nothing doing.

Rye, there is more doing at 56½ a 57 cts. easier feeling.

Oats.—Sales Northern 39 a 41.

Corn is in fair demand: sales 8000 bushels. Southern yellow part at 54 and the residue on private terms,

Nothing doing in provisions, Saturday's prices are fully maintained.

MARRIED:

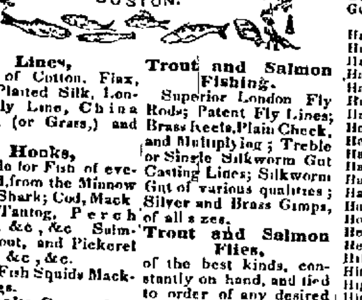

In Brewer, March 28th, by Rev. Mr. Dole, Mr. Samuel Gilpatrick to Miss Lydia Phillips.

mh 28

Caution to the Public.

Beware of Humbugs and Quacks!

THE HUMAN EYE is too delicate an organ to be trifled with, notwithstanding this, there are Quacks in our community, unprincipled enough that of course know nothing of the Science of Optics and will for mere paltry gain buy, sell and *puff up* an inferior article of SPECTACLES that cost half price The lenses in particular, being so untrue and imperfect as to ruin the sight entirely if persisted in for any length of time

The subscriber having served a regular apprenticeship with Mr D B WIDDIFIELD Optician, of Boston, and with 17 years practice in manufacturing and fitting lenses for all defects of the eye, within the reach of Optical assistance he trusts he will be enabled to give satisfaction in this department, to all who favor him with a call

Please call at No. 5 State Street.
A. G. CATLIN.
March 29, 1850 dlw&w3w

"The fair Nereides
They came on shore, and slily as they fell
Convul'd each tear into an oyster shell"

So sung the author of Britannia's Pastorals, and no wonder that Pliny wrote praisingly of his delicious delicacy of the palate which titillates with so exquisite a sensation and causes the limpid saliva to flow in a Niagara of delight How large and sweet and pleasant and tender and white are the OYSTERS found at GEORGE FARRINGTON'S famous *SALOON.*

A Dutchman calls for his *Æster*, and GEORGE serves him in a twinkling

A German steps into a curtained alcove and asks for his *Auste* , and a bowl of the white soup is placed before him

The Swiss calls for *Ostra*, and the glistening dish is provided

The French man seats himself in Alcove No 76, and orders *Huistre*, and smiling GEORGE furnishes a variety which makes the Frenchman's stomach have a holiday of delight

A dark Spaniard demands his favorite *Ostia* which FARRINGTON'S attendants immediately place before him

The Italian, panting with expectation throws off his little hat, seats himself in the richest alcove he discovers unoccupied and calls upon *FARRINGTON* for *Ostra* which GEORGE nothing loth, places before him in the raw, the roast, the soup, the fried, the fricassee, and other shapes which his skill has discovered

The Yankee takes his comfortable seat and orders his *Oysters*—four plates, and six cups of Coffee! His order is answered, for the Proprietor is everlastingly on his feet!

Such is a brief picture of the famous Establishment of GEORGE FARRINGTON,—the great emporium of the Eastern country,—where OYSTERS of most excellent quality, and deliciously cooked and seasoned, may be obtained in any quantity

Remember the place at the East end of Kenduskeag Bridge just two doors from John Low's iron sided weather beaten solid and invincible City Market, where, if the gentlemanly Proprietor is not himself present Simon Sidelinger will be found with all the fat and fair slices

THE VEGETABLE PULMONARY BALSAM

The Most Highly Approved and Popular Standard Medicine now in General Use for

COUGHS COLDS AND CONSUMPTIONS, *Asthma Pleurisy, Phthisic Spitting of Blood Hooping Cough, Bronchitis*, and all Pulmonary Affections, and Diseases of the Lungs and Chest

It is thus spoken of by eminent Physicians One says—"For the above complaints it is superior to any other preparation used" Another—"It has been used with *wonderful* success, and has a superiority over every kind of medicine used" Another—"I can with *confidence* recommend it" Another—"It has been used with complete success, and I am satisfied that it is a *valuable medicine*" Another—"It is a *safe convenient*, and very *efficacious* medicine"—Another—"It has never, to my knowledge, disappointed the reasonable expectations of those who have used it" Another—"It is equal if not superior to any other medicine within my knowledge."

Extract from a letter dated Dayton, Ill, April 13, 1849—"It was first introduced into my family by a celebrated Physician, some ten years ago, and such was the benefit my wife derived *from it* that we have not been without it in our house since I have also recommended it to at least fifty different persons since for Affections of the Lungs, and I do not know of a single case in which it did not give *immediate* relief and some were cured after being given up by their Physicians."

BEWARE OF COUNTERFEITS AND IMITATIONS such as CARTER'S COMPOUND PULMONARY BALSAM AMERICAN PULMONARY BALSAM and others, in fact, bearing the name Enquire for the article by its whole name the

"VEGETABLE PULMONARY BALSAM"

and see that it has the written signature of WM JOHN CUTLER upon a yellow label, on the blue wrapper Each bottle and seal is stamped "Vegetable Pulmonary Balsam"

Prepared by REED & CUTLER, Importers and Wholesale Dealers in Medicines, Paints, Chemicals, and Dye Stuffs, 33 India Street, Boston, and sold by Druggists, Apothecaries, and Country Merchants generally For particulars and recommendations see a Pamphlet accompanying each bottle. Price 50 cents

PATENTS. American and Foreign Office.

AGENCY FOR BUSINESS

With U S. Patent Office

WASHINGTON

NO. 22 STATE STREET, BOSTON.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U S Patent Office, in accordance with the 10th Sec of Act of 37

Having relinquished the Agency for the transmission of Models and adopted a more expeditious mode of sending them to the Patent Office *whereby a Patent may be procured about six weeks earlier*, he continues to forward them free of expense—to prepare Caveats Specifications Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at this office inventors are saved the time and expense of a journey to Washington and delay there as well as all personal trouble in obtaining their patents They also have the advantage of *verbally* explaining their inventions, and of consulting in respect to them, *matters, in general of paramount importance in order to obtain correct specifications and claims* The experience of *sixteen* years practice, an extensive collection of rare works decisions &c on mechanical subjects the Patent Laws and patents of different countries, collected at much expense during the long time this office has been established together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment

R H EDDY Solicitor of Patents

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents R H EDDY, Esq, of Boston, did business at the Patent Office as Solicitor for procuring Patents There were few, if any persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office

EDMUND BURKE,

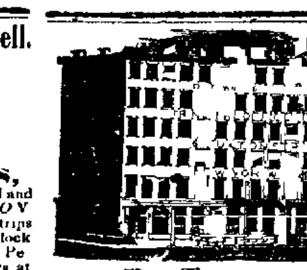

Late Commissioner of Patents

Dr. Townsend's COMPOUND EXTRACT OF SARSAPARILLA,

Wonder and Blessing of the Age

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

This Extract is put up in Quart Bottles—it is six times cheaper pleasanter and warranted superior to any sold It cures without vomiting, purging, sickening, or debilitating the Patient.

The great beauty and superiority of this Sarsaparilla over all other medicine is, while it eradicates disease it invigorates the body It is one of the very best

SPRING AND SUMMER MEDICINES

ever known it not only purifies the whole system and strengthens the person, but it *creates new, pure and rich blood*, a power possessed by no other medicine And in this lies the grand secret of its wonderful success—It has performed within the last five years, more than 100,000 cures of severe cases of disease at least 15,000 were considered incurable It has saved the lives of more than 5 000 children during the two past seasons

10 000 CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY

Dr Townsend's Sarsaparilla invigorates the whole system permanently To those who have lost their muscular energy by the effect of medicine or indiscretion committed in youth, or the excessive indulgence of the passions and brought on a general physical prostration of the nervous system lassitude, want of ambition, fainting sensations, premature decay and decline hastening toward that fatal disease, Consumption, can be entirely restored by this pleasant remedy This Sarsaparilla is far superior to any

INVIGORATING CORDIAL,

As it renews and invigorates the system gives activity to the limbs and strength to the muscular system in a most extraordinary degree

CONSUMPTION CURED

Cleanse and Strengthen Consumption can be cured Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or profuse expectoration, Pain in the Side, &c, have been and can be cured

SPITTING BLOOD

New York, April 28, 1847

Dr Townsend—I verily believe that your Sarsaparilla has been the means through Providence, of saving my life I have for several years had a bad cough It became worse and worse At last I raised large quantities of blood, had night sweats and was greatly debilitated and reduced and did not expect to live—I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me I am now able to walk all over the city I raise no blood, and my cough has left me You can well imagine that I am thankful for these results,

Your obedient servant,

WM RUSSELL, 65 Catharine st.

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured The most severe and chronic cases are weekly eradicated by its extraordinary virtues

James Cummings, Esq, one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter

Blackwell's Island, Sept 14, 1847

Dr Townsend—Dear Sir I have suffered terribly for nine years with the Rheumatism, considerable of the time I could not eat, sleep or walk I had the most distressing pains, and my limbs were terribly swollen I have used four bottles of your Sarsaparilla, and they have done me more than one thousand dollars worth of good I am so much better—indeed I am entirely relieved You are at liberty to use this for the benefit of the afflicted Yours respectfully,

JAMES CUMMINGS

FITS! FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits, of course never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County

Fordham, August 13, 1847

Dr Townsend—Dear Sir I have a little girl, seven years of age, who has been several years afflicted with Fits we tried almost every thing for her, but without success, at last, although we could find no recommendation in your circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did, for it not only restored her strength, but she has had no return of the Fits, to our great pleasure and surprise She is fast becoming rugged and hearty, for which we feel grateful. Yours respectfully,

JOHN BUTLER, Jr.

FEMALE MEDICINE

Dr Townsend s Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri or Falling of the Womb, Costiveness, Piles, Leucorrhoea or Whites, obstructed or difficult Menstruation Incontinence of Urine or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness, or accident Nothing can be more surprising than its invigorating effects on the human frame Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence It immediately counteracts the nervelessness of the female frame, which is the great cause of Barrenness—It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted, that hundreds of cases have been reported to us Thousands of cases where families have been without children after using a few bottles of this invaluable medicine, have been blessed with fine healthy offspring.

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period, "*The turn of life*," should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life This period *may be delayed for several years by using this medicine* Nor is it less valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease By using a few bottles of this medicine, many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attendant upon child birth ever discovered It strengthens both the mother and child prevents pain and disease, increases and enriches the food—those who have used it think it is indispensable It is highly useful both before and after confinement as it prevents diseases attendant upon childbirth—in Costiveness Cramps, Swelling of the Feet, Despondency Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful Exercise in the open air and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, beautifies its own production in the "human face divine," as well as in the garden of rich and delicately tinted and variegated flowers A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities is that which paints the countenance in the most exquisite beauty. It is that which imparts the indescribable shades and flushes of loveliness that all admire but none can describe This beauty is the offspring of *nature*—not of *powder* or *soap* If there is not a free and healthy circulation, there is no beauty If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold, and impure, she is not beautiful If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating

This is the reason why the southern, and especially the Spanish ladies, are so much admired Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complexions, they should use Dr Townsend's Sarsaparilla Thousands who have tried it, are more than satisfied are delighted Ladies of every station crowd our office daily

NOTICE TO THE LADIES

Those that imitate Dr Townsend's Sarsaparilla have invariably called their stuff *a great remedy for females*, &c &c, and have copied our bills and circulars which relate to the complaints of women, word for word—other men who put up medicine have since the great success of Dr Townsend s Sarsaparilla in complaints incident to females recommended theirs although previously they did not A number of these Mixtures Pills &c are injurious to females as they aggravate disease and undermine the constitution

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood. Three persons cured in one house unprecedented

THREE CHILDREN.

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine—They were afflicted very severely with bad sores; I have taken only four bottles, it took them away, for which I feel myself under great obligation Yours respectfully,

ISAAC W CRAIN 106 Wooster st.

OPINIONS OF PHYSICIANS

Dr Townsend is almost daily receiving orders from Physicians in different parts of the Union

This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr Townsend's Sarsaparilla and believe it to be one of the most valuable preparations of the Sarsaparilla in the market H P PULING, M D., J WILSON, M D., R B BRIGGS, M D., P. E ELMENDORF, M D.

Albany, April 1 1846

CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, Extracts of Yellow Dock, &c They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements,—they are worthless imitations, and should be avoided

White's Hair Restorative:

A PURELY VEGETABLE COMPOUND

For Restoring Beautifying Cleansing Softening, and Dressing THE HAIR

THIS elegant preparation is fast taking the place of all other articles in use for oiling and dressing the Hair It prevents the Hair from falling off, promotes its growth, removes dandruff, and restores the natural and luxuriant growth of the Hair in all cases of baldness It also removes pain and heat in the head, and is a sovereign remedy for all diseases of the scalp It gives the Hair a brilliant glossy lustre a silken texture, and a healthy vigorous appearance, No Lady's toilet can be complete without this indispensable article

RECOMMENDATION

[Certificate of Dr PERRY Portsmouth, N H]

PORTSMOUTH Sept 29 1849

Mr J P MORSE, Agent for "White's Hair Restorative"

Dear Sir—I deem it my duty to state some facts respecting the inestimable value of White s Hair Restorative Several years ago after a severe fit of sickness, my wife lost all of her hair, the scalp appeared dried and, the hair grew out brittle, and one ... About a year ago, by another fit of sickness, she lost all her hair a second time and for a long time there was apparently no life in the scalp After various applications I was induced to try the above mentioned Restorative and now after the use of a few bottles her hair has grown out thick, as lustrous and as beautiful as ever Furthermore, for a long time I have been afflicted with neuralgic and other pains in my head and I have found it the best external remedy I have ever tried, I can therefore cheerfully recommend it to all who are afflicted as above, as the best article I have ever seen

Most respectfully yours &c.

A PERRY, M D.

Another Life Saved.

Read the following letter from a Clergyman of Camden Me, to the Editor of the GOSPEL BANNER—

DOWN'S ELIXIR,—A CURE.

BR DREW—being anxious to do good to my fellow beings, as I have means and opportunity, I wish to state, through the Banner, that in my sickness last winter and spring I received very great benefit from the use of N H DOWN'S ELIXIR

I had been troubled some weeks with a severe cold which so affected the vocal organs that it was with great difficulty I discharged the duties of my office My cold continued until I was completely prostrated by bleeding which created a dry, hard cough My appetite failed my strength wasted, and my flesh disappeared Seeing 'Vistar's Balsam of Wild Cherry' recommended in the Banner, procured a bottle and commenced taking it and continued its use until I had taken three bottles when I became satisfied that it contained opium, making it ... I tried other kinds of patent medicines but with no good effect ... weeks I continued gradually to sink and my difficulty increased until which time, I was extremely weak my skin dry and husky, and my feet and hands cold most of the time I had a dull, heavy pain between my shoulders, and distressing pain in the pit of my stomach My tongue was coated with white fur, bowels very irregular and costive, hectic flush every day, hard cough, difficulty in breathing, and low spirits My stomach at this time was so sore and weak that it was with difficulty I could stand erect This was my situation when I commenced the use of N H DOWN'S ELIXIR—I had to my great joy, and the greater joy of my friends, found that the use of it a few days had regulated my bowels equalized the circulation and produced a healthy moisture upon the skin I used three bottles in two weeks which entirely removed the soreness and weakness from my stomach, gave me a good appetite, and greatly improved my strength I continued its use six weeks, using six bottles at which time I was able to resume my ministerial labors I have since recommended it to a large number, and have never known it to fail of doing good where the directions were followed

I have given it to my children in *colds*, and in a case of *measles*, and it has proved ALL IT IS RECOMMENDED to be

I therefore *cheerfully* recommend N H DOWN'S VEGETABLE BALSAMIC ELIXIR to all who are afflicted with any of the diseases for which it is recommended Yours truly, J L TUTTLE

Camden August, 1849

Facts deduced from the foregoing letter

1st Down's Elixir is laxative—curing costiveness while other medicines increases that difficulty

2d It is perspirative It equalizes the circulation—restores a healthy moisture to the skin, and vigor and tone to the system

3d It removes soreness and weakness from the stomach—gives a good appetite, and restores strength to the system

4th It cures colds—is an effectual remedy for the measles, and proves 'ALL IT IS RECOMMENDED TO BE."

It is sold by Druggists and dealers in medicine throughout the country, and at wholesale and retail at proprietor's prices by DAVID BUGBEE G W LADD, CURTIS & PERKINS A P GUILD, WM MANN G McFARLAND Bangor, I S Smith J W Curtis & Co, Hampden, Chas Johnson, J B Chick, Frankfort, H P Fifield Bucksport, J Hooper, Jr S P Hatch & Co Castine, B Nourse Geo Parcher Ellsworth, E P Butler & Co Orono, J & R Fisk, H & J Y Richardson Oldtown, Wm O Poor, Belfast, Chas A Macomber R F Slocomb East Thomaston

SARSAPARILLA

...in all Christianized and civilized countries has caused a larger proportion of deaths than any other malady that afflicts the human family and until within a few years, there has not been any *certain remedy* to stop the devastation of that destroyer But now—

BRANT'S INDIAN PULMONARY BALSAM

cures very many of the most strongly marked and developed cases of PULMONARY CONSUMPTION—*real and* ... *cases of ulcerated and diseased* LUNGS—such hopeless cases as were never before cured by any other medicine *So utterly hopeless* were some of the afflicted persons, as to have been pronounced by *physicians* and friends to be ACTUALLY DYING Some who had their burial clothes made, have been cured and yet live, others, who it was said would not live another day, are now as well and hearty as they ever were

It possesses all the cleansing and purifying virtues nearly as powerful and active as the preparation which we call

BRANT S INDIAN PURIFYING EXTRACT

The Balsam differs from the Extract, because it possesses *several medications which are peculiarly adapted to, and are essentially necessary for, the cure of*

COUGHS AND CONSUMPTIONS,

and all diseases of a pulmonary nature—such diseases as usually prove so fatal under ordinary treatment, when they attack the

Breast, Throat, Lungs, and Heart.

This BALSAM HEALS AND CURES ULCERS *in the LUNGS*, and elsewhere *internally* as *certainly* and *easily* as the PURIFYING EXTRACT *cures* and *heals* ulcers *externally* This Balsam cures NINE *cases* of *Cough* and *Consumption* out of TEN, after all other remedies have *failed to do good*

Thousands of Consumptions

and *Chronic Coughs* abundantly prove its *unfailing efficacy* in such diseases and its undoubted curative power and soothing healing properties, in the following complaints and diseases viz *Spitting of Blood Bleeding at the Lungs, Pain in the Breast and Side Night Sweats Nervous Complaints, Palpitation of the Heart, Cholera Infantum Dysentery and Summer Complaints in Children and Adults*, and ALL FEMALE WEAKNESSES

CONSUMPTION. A DYING WOMAN CURED!

We state this cure, to prove the POWER TO SAVE LIFE, when this BALSAM is used even after the person is *considered by physicians and friends to be in the last stages of disease*—actually DYING—and, in this case so FAR GONE *that the* SHROUD *and* BURIAL CLOTHES *were bought!* For the *particulars* of this case and the *respectable and undoubted proof* of all the circumstances and facts, we refer to our PAMPHLETS This cure was effected on Mrs ZIBA DYKEMAN, of *Ballston Spa Saratoga County N Y* We can prove, beyond a doubt *many others almost equally hopeless*, and *innumerable cases of Coughs and Consumptions* CURED, which were *pronounced incurable* by SKILFUL PHYSICIANS

A DOCTOR CURED!

DR J W FRENCH *of Hillsdale Hillsdale Co, Michigan*, about the 1st of January, 1849, wrote as follows "I have been in the regular practice of medicine in this place for nine years but was obliged to quit the practice of my profession in consequence of ill health I was so severely afflicted with a *Chronic Disease of the Lungs* as to convince me that I HAD THE CONSUMPTION, past doubt I coughed almost incessantly night and day and had severe pains and soreness in my chest, side, and breast I tried the remedies recommended by the most skilful of the profession all to no effect excepting the nausea and debility caused by them I was prejudiced against patent medicines, and have no faith now in them generally But I was induced—as an experiment, more than through faith—to try a bottle of BRANT'S INDIAN PULMONARY BALSAM and I do here acknowledge for the benefit of the afflicted, or whom it may serve that the effect of its use on me was the most prompt and salutary of any medicine I ever witnessed the effect of in all my practice *My cough was immediately relieved*, and in about eight or ten days I was free from cough soreness of the chest and pain and now consider and *pronounce myself* a WELL MAN" Dr French is now a respectable druggist at Hillsdale

FITS, FITS, FITS.

Messrs J K LIPPINCOTT & SON respectable merchants at *Hillsgrove Sullivan county Pennsylvania* wrote to us May 12 1849 stating, among other BENEFITS which had been derived from the use of BRANT'S PULMONARY BALSAM that one of their customers had just informed them that her child, which had been subject to FITS *for several years* was cured by the use of BRANT S BALSAM

Would soon be in a Grave.

Mr WILLIAM D JENNINGS a merchant at *Pierpont Centre Ashtabula county Ohio*, wrote to us October 2 1848 and stated a cure of CONSUMPTION which the use of BRANT'S INDIAN PULMONARY BALSAM had effected in Mr WILLIAM CROCKET of an adjoining town He said Mr Crocket had sought relief from the best physicians and numerous medicines but found none, for the fatal hand of that unrelenting monster *Consumption* had taken fast hold on his vitals, and was so destroying and debilitating his body that he was a mere skeleton He *was given up* by his physicians and all friends as one who would *soon inhabit a grave* But even in this last extremity, strange and marvellous as it may seem, yet it is true, that the use of only *five bottles* of BRANT'S INDIAN PULMONARY BALSAM has unclenched the hand of the destroyer and restored Mr Crocket to health and he is now *a healthy hearty rugged man!*

S D DANN, Esq *merchant and postmaster at Jefferson* an adjoining town wrote to us at about the same time and stated that he was acquainted with Mr CROCKET, and *testified to his* CURE, *and all the above named facts*

Could not Live a Day longer!

Messrs E B CALDWELL & Co, *of East Oswego, Oswego Co, N Y* respectable druggists wrote to us We have just heard through Mr Whitman a respectable citizen of this place of an important cure of *Consumption* which BRANT'S INDIAN PULMONARY BALSAM has produced on the wife of an acquaintance of his, who resides in the town of Palermo, in this county She had been confined to her bed, and was so dangerously diseased, that her friends believed it impossible for her to *live more than* ONE DAY LONGER But, when all other hope utterly failed she commenced taking BRANT'S PULMONARY BALSAM and its medical efficacy has raised her from a DYING BED, so that she is now *going about and attending to her domestic household affairs and duties* She acknowledges and it is very evident that she is indebted to BRANT'S BALSAM for her recovery from a long, severe, and dangerous sickness, and her friends and neighbors consider that medicine invaluable

RAISED FROM THE GRAVE.

Messrs PRATT & FOSTER, *merchants of West Cornwall Conn*, said BRANT'S BALSAM had effected cures of such hopeless cases of CONSUMPTION in their town that no other cough medicine could be sold there that *it had raised some as if from the* GRAVE—some that physicians and all the friends said MUST DIE! One gentleman in particular, was so far gone, that his physician told him it was *useless to take any more medicine* He then *when no hope was left*, began to take BRANT'S BALSAM—GOT WELL—*and is now as well as ever he was!*

Many Consumptions Cured.

Mr S H CLARK, merchant *Clyde Wayne county N Y*, wrote to inform us that BRANT'S PULMONARY BALSAM sold readily at Clyde, and said "If the statements of some of our most respectable people and personal visible knowledge, can be relied on, its medical virtues have cured *many consumptive persons*, several of whom I am acquainted with, who were so hopelessly sick as to be considered by physicians and all friends past a possibility of cure, and yet, the facts are, BRANT'S BALSAM has restored them to PERFECT HEALTH"

LUNGS BLED—MUST DIE!

Mr Z S TERRY *merchant, Byron, Genesee county, N Y*, wrote, August 24, 1848; "BRANT'S medicine is doing wonders here It has cured a man of *Consumption* that all the physicians had said *must die* When he commenced taking Brant's medicine, he could not raise his hand to his head *he bled at the lungs*, and every symptom seemed to indicate that he must die, but, astonishing to all, he is now able to labor and rides all over the county He used *only five bottles* It has also cured a young lady of *Consumption* in Orleans county which her father says *no doctor could cure*"

Mr MILLER a merchant of the same place, has certified to the truth of the above statement.

WAS BELIEVED PAST CURE.

Mr CORNELIUS H SMITH merchant, *Collins Centre, Erie county, N Y*, January 16, 1849, said "Your BRANT'S INDIAN PULMONARY BALSAM and BRANT'S PURIFYING EXTRACT are nearly all sold and I want immediately another supply, for they sell more rapidly, and *give better satisfaction*, than all the other medicines we have for sale The *Pulmonary Balsam* has raised a lady here from a bed of dangerous and severe sickness which all the doctors had given up as INCURABLE They said she MUST DIE *with a Consumption of the Lungs* After all had pronounced the case HOPELESS, she commenced taking BRANT S BALSAM—and now *she is well*"

CHRONIC DYSENTERY,

and SUMMER COMPLAINTS, *in children or grown persons*, cured *without any failure whatever* Also—

CHOLERA INFANTUM.

No mother need ever mourn the death of her child by that child-destroying complaint, when *teething* in warm weather—*Cholera Infantum*, or what is called SUMMER COMPLAINT—if "BRANT'S PULMONARY BALSAM" be administered to the child It should, however, in *such cases* be used in *twice as large potions* as the directions on each bottle prescribe, until the complaint is checked

CAUTION EXTRA

A man by the name of *CLAPP* has engaged with a young man of the name of S P Townsend and uses his name to put up a Sarsaparilla, which they call Dr Townsend's Sarsaparilla denominating it *GENUINE* Original etc This Townsend is no doctor and never was, but was formerly a worker on railroads canals, and the like Yet he assumes the title of Dr, for the purpose of gaining credit for what he is not This is to caution the public not to be deceived and purchase none but the *GENUINE ORIGINAL OLD* Dr Jacob Townsend s Sarsaparilla having on it the Old Dr s likeness his family coat of arms and his signature across the coat of arms

Principal Office, 102 Nassau st New York City

OLD DR. JACOB TOWNSEND,

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla.

Old Dr Townsend is now about 70 years of age and has long been known as the *AUTHOR* and *DISCOVERER* of the *GENUINE ORIGINAL TOWNSEND SARSAPARILLA* Being poor he was compelled to limit its manufacture by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth and known its value It had reached the ears of many nevertheless, as those persons who had been healed of sore diseases, and saved from death proclaimed its excellence and wonderful

HEALING POWER.

Knowing many *years ago* that he had by his skill, science and experience devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice when its inestimable virtues would be known and appreciated This time has come the means are supplied this

GRAND AND UNEQUALLED PREPARATION is manufactured on the largest scale and is called for throughout the length and breadth of the land especially as it is found incapable of degeneration or deterioration

Unlike young S P Townsend s it improves with age, and never changes but for the better because it is prepared *on scientific principles* by a *scientific man* The highest knowledge of Chemistry and the latest discoveries of the art have all been brought into requisition in the manufacture of the Old Dr s Sarsaparilla The Sarsaparilla root, it is well known to medical men contains many medicinal properties and some properties which are inert or useless and others which if retained in preparing it for use produce *fermentation* and *acid* which is injurious to the system Some of the properties of Sarsaparilla are so *volatile* that they entirely evaporate and are lost in the preparation if they are not preserved by a *scientific process*, known only to those experienced in its manufacture Moreover these *volatile principles* which fly off in vapor or as an exhalation under heat, are the very *essential medical properties* of the root which give to it all its value

Any person can boil or stew the root till they get a dark colored liquid which is more from the coloring matter in the root than from any thing else they can then strain this insipid or vapid liquid sweeten it with sour molasses and then call it SARSAPARILLA EXTRACT or SYRUP But such is not the article known as the

GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA

This is so prepared that all the inert properties of the Sarsaparilla root are first removed every thing capable of becoming acid or of fermentation is extracted and rejected then every particle of medical virtue is secured in a pure and concentrated form and thus it is rendered incapable of losing any of its valuable and healing properties Prepared in this way it is made the most powerful agent in the

Cure of innumerable diseases

Hence the reason why we hear commendations on every side in its favor by men women and children We find it doing wonders in the cure of *CONSUMPTION DYSPEPSIA* and *LIVER COMPLAINT* and in *RHEUMATISM SCROFULA, PILES COSTIVENESS all CUTANEOUS ERUPTIONS PIMPLES BLOTCHES* and all affections arising from

IMPURITY OF THE BLOOD

It possesses a marvellous efficacy in all complaints arising from *Indigestion* from *Acidity of the Stomach* from unequal circulation determination of blood to the head, palpitation of the heart cold feet and hands cold chills and hot flashes over the body It has not its equal in *Colds* and *Coughs* and promotes easy expectoration and gentle perspiration relaxing stricture of the lungs, throat and every other part

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS

It works wonders in cases of *Fluor Albus* or *Whites Falling of the Womb Obstructed Suppressed* or *Painful Menses Irregularity* of the menstrual periods and the like And is as effectual in curing all the forms of *Kidney Disease*

By removing obstructions and regulating the general system it gives tone and strength to the whole body and thus cures all forms of

Nervous diseases and debility,

and thus prevents or relieves a great variety of other maladies as *Spinal irritation Neuralgia St Vitus Dance Swooning Epileptic Fits Convulsions* &c.

It cleanses the blood excites the liver to healthy action tones the stomach and gives good digestion, relieves the bowels of torpor and constipation allays inflammation purifies the skin equalizes the circulation of the blood producing gentle warmth equally all over the body and the insensible perspiration relaxes all strictures and tightness removes all obstructions and invigorates the entire nervous system Is not this then

The medicine you pre-eminently need!

But can any of these things be said of S P Townsend's inferior article? This young man's liquid is not to be

COMPARED WITH THE OLD DRS

because of one GRAND FACT that the one is INCAPABLE of DETERIORATION and

NEVER SPOILS,

while the other DOES *souring fermenting* and *blowing the bottles* containing it into fragments the sour acid liquid exploding and damaging other goods Must not this horrible compound be poisonous to the system?—*What! put acid into a system already diseased with acid* What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs what mischiefs it produces? flatulence heartburn palpitation of the heart liver complaint diarrhoea dysentery colic, and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin Scald Head Salt Rheum Erysipelas White Swellings Fever Sores and all ulcerations internal and external? It is nothing under heaven but an acid substance which sours and thus spoils all the fluids of the body more or less What causes Rheumatism but a sour or acid fluid which insinuates itself between the joints and elsewhere irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases of impurity of the blood of deranged circulations and nearly all the ailments which afflict human nature

Now is it not horrible to make and sell and *infinitely worse* to use this

SOURING, FERMENTING, ACID "COMPOUND" OF S. P TOWNSEND

and yet he would fain have it understood that Old Dr Jacob Townsend s *Genuine Original Sarsaparilla* is an IMITATION of his inferior preparation

Heaven forbid that we should deal in an article which would bear the most distant resemblance to S P Townsend s *article!* and which should bring down upon the Old Dr such a mountain load of complaints and criminations from Agents who have sold and purchasers who have used S P Townsend s FERMENTING COMPOUND

We wish it understood because it is the *absolute truth*, that S P Townsend s article and Old Dr Jacob Townsend s Sarsaparilla are *heaven wide apart* and *infinitely dissimilar* that they are unlike in every particular having not one single thing in common

As S P Townsend is no doctor and never was is no chemist no pharmaceutist—knows no more of medicine or disease than any other common unscientific unprofessional man what *guarantee* can the public have that they are receiving a genuine scientific medicine containing all the virtues of the articles used in preparing it, and which are incapable of changes which might render them the AGENTS of Disease instead of health.

But what else should be expected from one who knows nothing comparatively of medicine or disease? It requires a person of some experience to cook and serve up even a common decent meal How much more important is it that the persons who manufacture medicine designed for

WEAK STOMACHS AND ENFEEBLED SYSTEMS should know well the medical properties of plants the best manner of securing and concentrating their healing virtues also an extensive knowledge of the various diseases which affect the human system and how to adapt remedies to these diseases

It is to arrest frauds upon the unfortunate to pour balm into wounded humanity, to kindle hope in the despairing bosom to restore health and bloom and vigor into the crushed and broken and to banish infirmity that OLD DR JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his

Grand Universal Concentrated Remedy

within the reach and to the knowledge of all who need it, that they may learn and know by joyful experience, its

Transcendent Power to Heal.
